The largest selection of smooth muscle cells!

- High purity and low passage
- Rigorous quality control
- Variety of vascular beds
- Cells from different species
- Cell sets from the same donor
- Matched endothelial cells
- Maximum flexibility
- Custom services
- Ready-to-use Total Kits

140 published studies on:

- Cardiovascular function & disease
- Vascular occlusion and restenosis
- Metabolism & signaling pathways
- Calcification & matrix deposition
- Oxidative stress & inflammation
- Proliferation & response to injuries
- Diabetes-associated complications
- Cancerogenesis
- Tissue engineering & 3D models

Primary Smooth Muscle Cells

- Aortic Smooth Muscle Cells (H, B, C, Cn, P, R, Rb)
- Brachiocephalic Artery Smooth Muscle Cells (H)
- Carotid Artery Smooth Muscle Cells (H)
- Coronary Artery Smooth Muscle Cells (H, B, P)
- Internal Thoracic Artery Smooth Muscle Cells (H)
- Pulmonary Artery Smooth Muscle Cells (H, B, Cn, P, R)
- Renal Artery Smooth Muscle Cells (B)
- Subclavian Artery Smooth Muscle Cells (H)
- Umbilical Artery Smooth Muscle Cells (H)
- Umbilical Vein Smooth Muscle Cells (H)

Brachiocephalic SMC
